

The Structure of Our Strategic Plan

The following pages outline the four goal areas that will help Harrison School District #36 meet an expected outcome of high levels of achievement for all students.

Each of the target areas include strategies that are designed to move the district closer to its expected outcome. Strategic activities will be implemented to reach these objectives and accomplish our goals as we in the district prioritize our work over the next five years.

Educational Programs	Facility Improvement	Family + Community Involvement	Financial Stability
<i>Design curriculum & instruction programming that enables students to reach their full potential.</i>	<i>Improve and maintain our current facility while also planning for future facility needs.</i>	<i>Development of the total child will involve the school, parents and the community!</i>	<i>Maintain fiscal responsibility through approval of balanced budgets and ongoing financial planning strategies.</i>
